BPMN - Three core objects

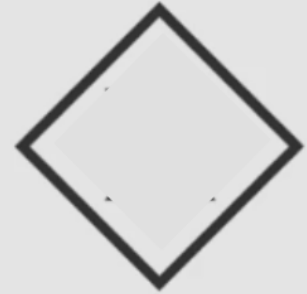

Events

Gateways

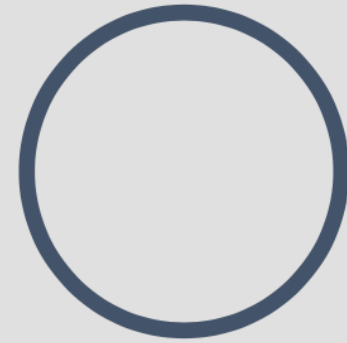

Activities

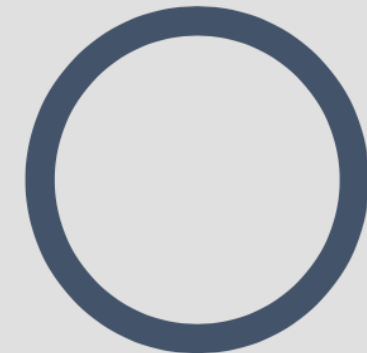

Start and End Event

The Start Event triggers the process.

The End Event defines the state that terminates the process.

Start Event

End Event

Activity

An activity or task is a unit of work.

It is the action to be carried out.

**Activity
(or Task)**

Gateways

Gateway define the logic in the notation.

Gateways

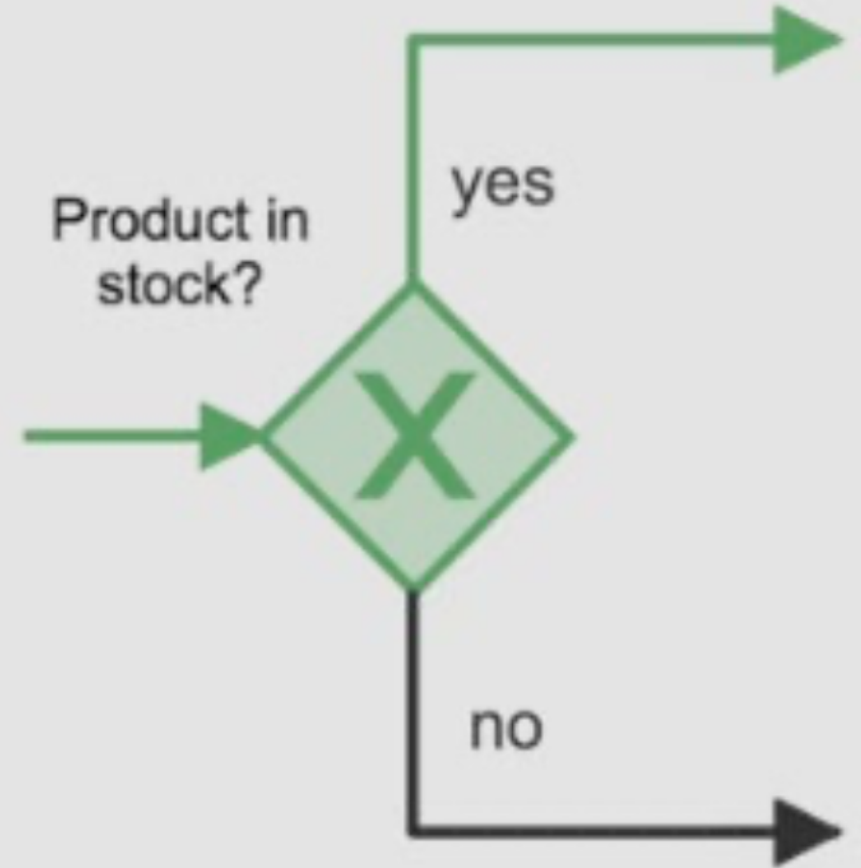

Can be drawn with or without the X in the middle.

Exclusive Gateway

The Exclusive Gateway defines a decision point.

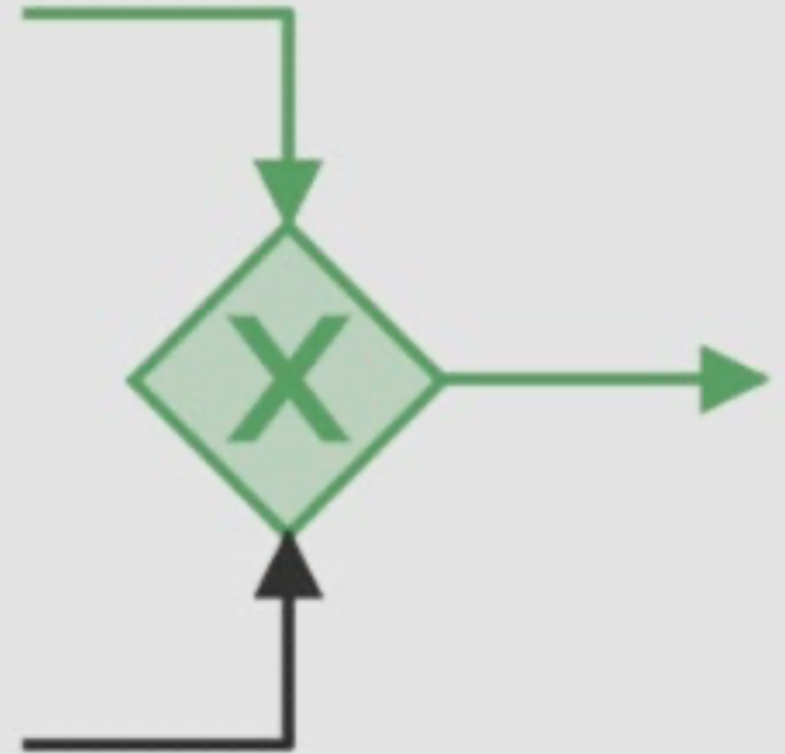

Only one path can be taken.

Closing Gateway

The Exclusive Gateway can be used to close branches.

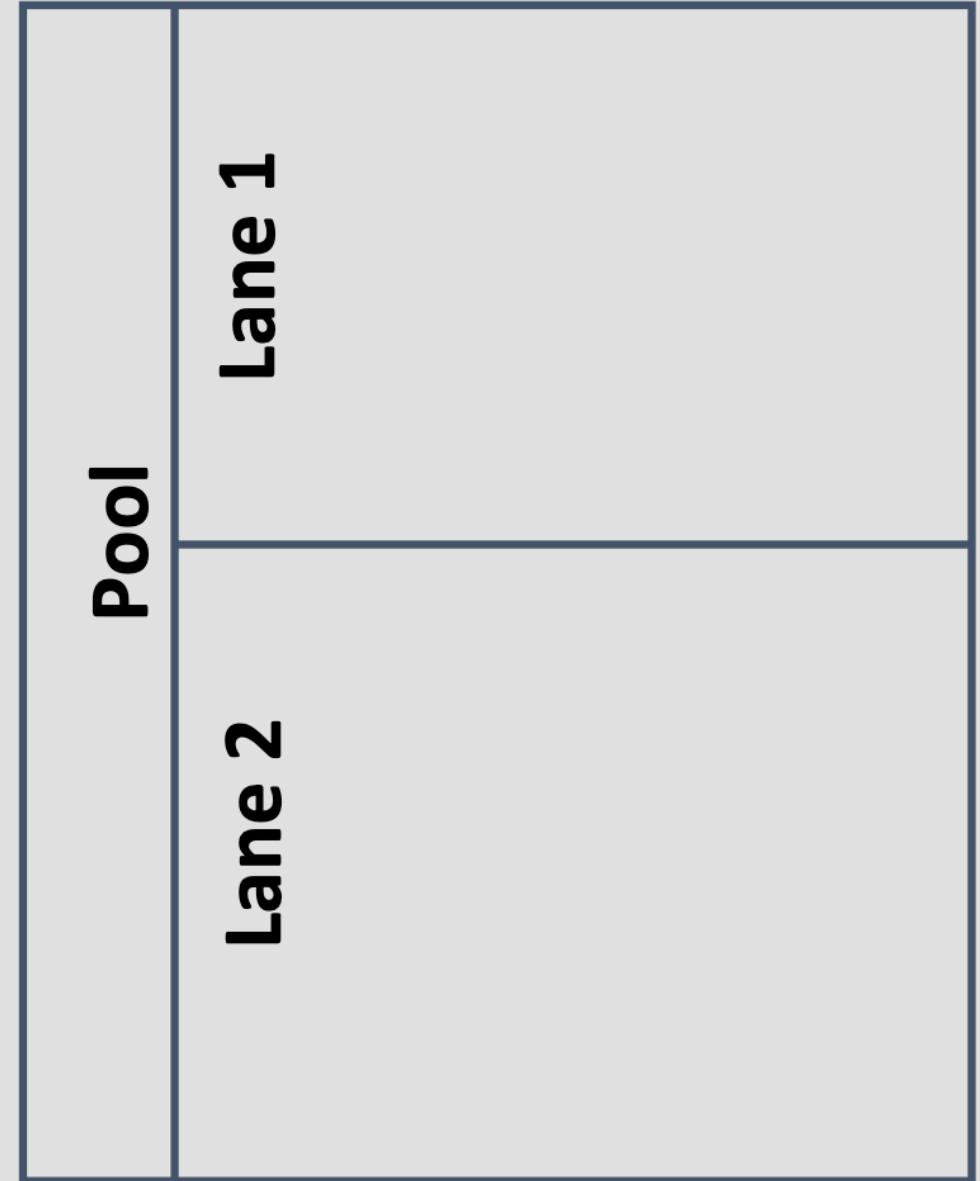

No decision logic involved.

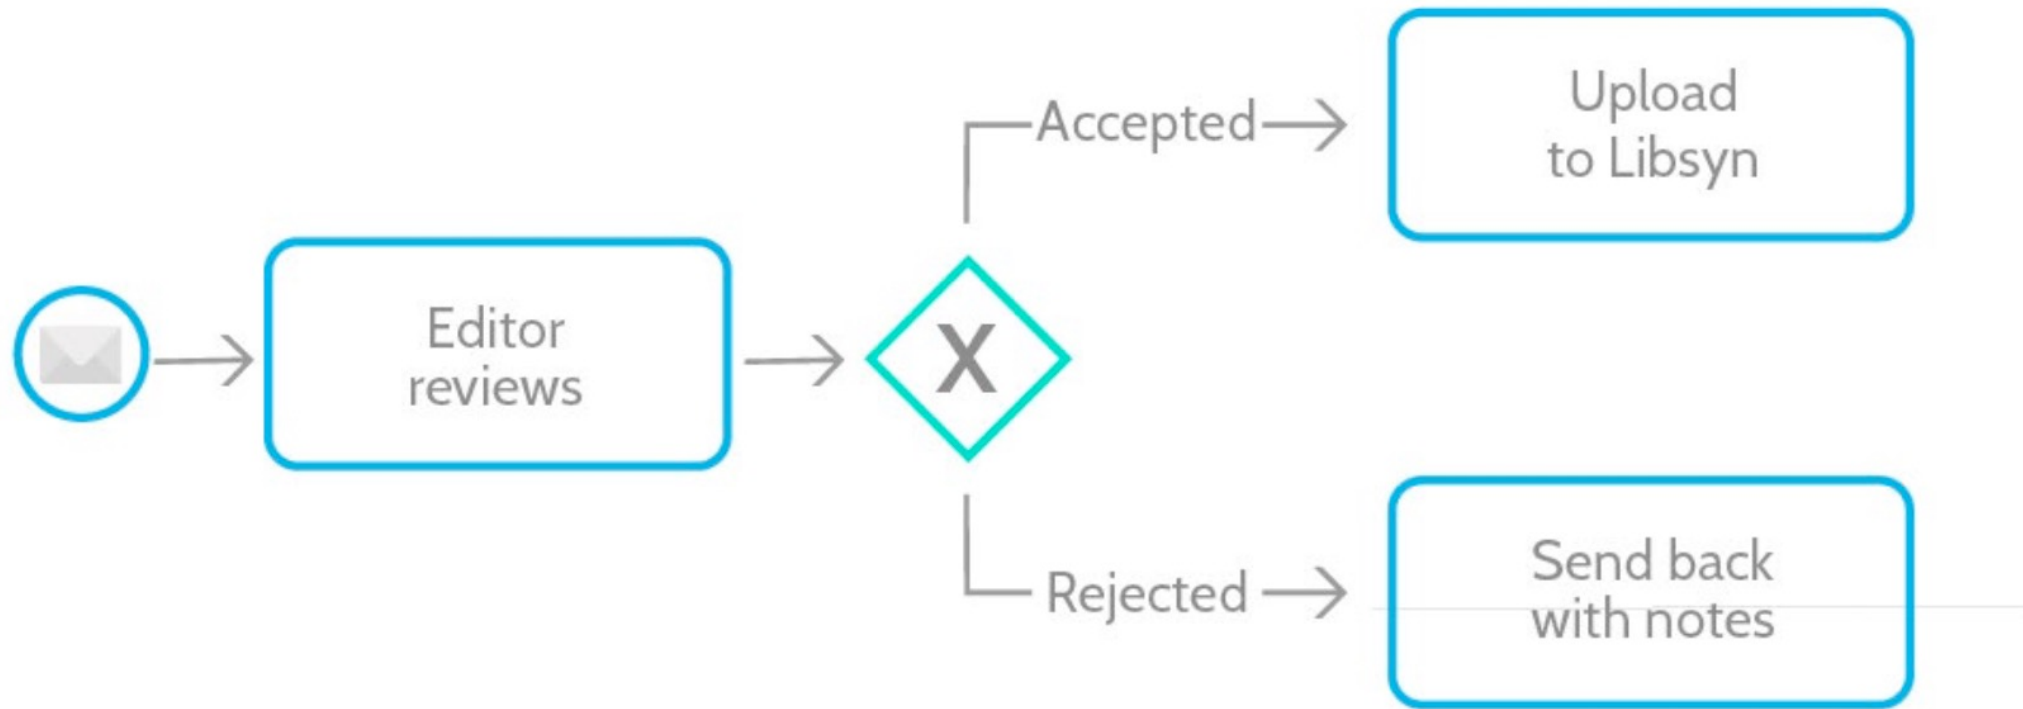

Pools and Lanes

Pools and lanes represent responsibilities for activities in a process.

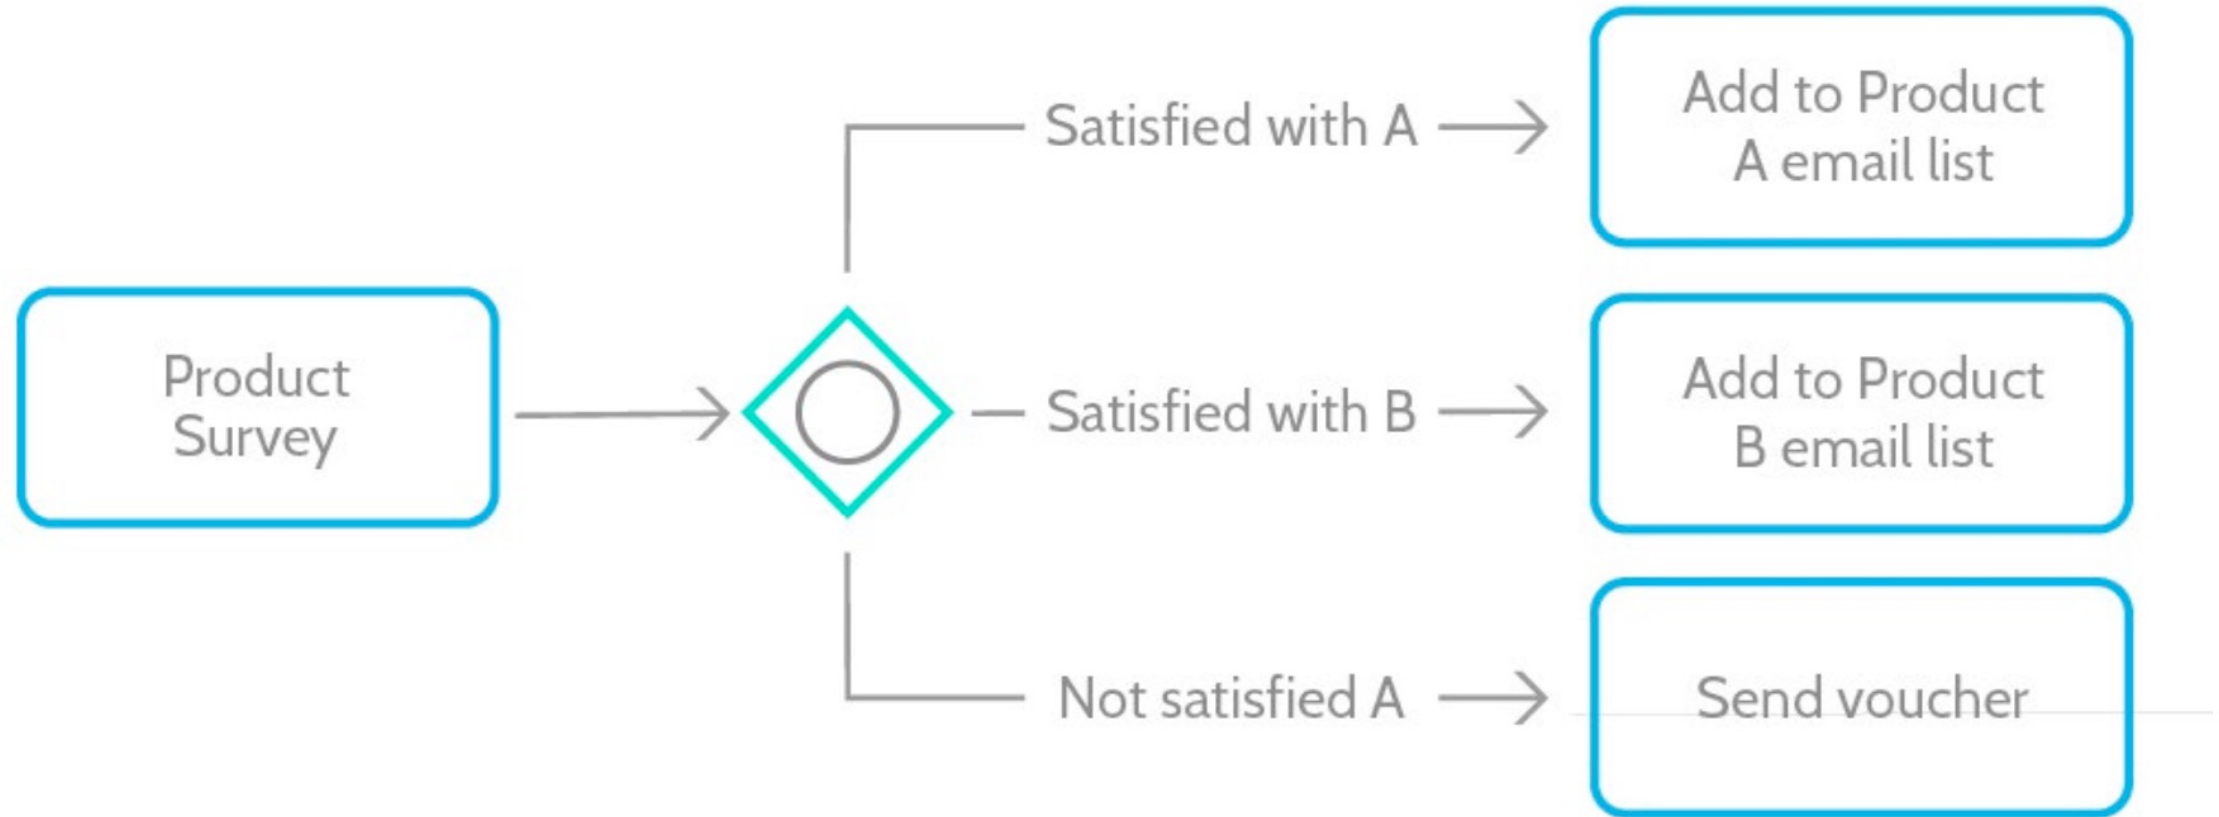

Lanes subdivide pools (roles, departments, systems).
